

ExpandIT MailIT Professional

Overblik

- **Problem:**

Navision er ikke optimal til at håndtere distribution af rapporter via email.

Tilbud, faktura og rykkere er alle rapporter.

Et personligt nyhedsbrev er en rapport.

- Der er potentiale for at afkorte forretningsgange væsentligt.

Pengestrøm, ressourcer, ...

- Et værktøj – ikke en "løsning".
COM-objekt.
HTML og/eller PDF
SMTP eller Outlook/MAPI
- Navision kodeeksempler.
- Kan implementeres overalt i Navision.

COM-objekt

- +75 metoder
- Egenskaber for email.
- Indlejre fx filer.
- Bestem output.
- ...

The screenshot shows the ExpandIT MailIT 2 application window. The title bar reads "ExpandIT MailIT 2". The interface includes a menu bar with options: Skjul, Find, Tilbage, Fremad, Udskriv, and Indstillinger. Below the menu bar are tabs for "Indhold", "Indeks", "Søg", and "Foretrukne". A list of methods is displayed in a scrollable area, with "SetSubject Sub" highlighted. To the right, the documentation for "SetSubject Sub" is shown, including a description, declaration, arguments, and see also section.

Dear David Nigby,

Our records show that you have a due balance of ZAR 16.560,00.

If our records are not correct, please help us clarifying this mistake by contacting sales@expandit.com.

If our records are correct then we would appreciate if you could settle the outstanding amount so we can continue to maintain and develop the software you are using.

Your current balance statement is as follows:

Date	Due Date	Amount	Currency	Description
19-12-06	18-01-07	16.560,00	ZAR	Invoice 311018
